

January 13, 2017

Dear Senator,

On behalf of the Nursing Community coalition, we look forward to collaborating with you in the 115th Congress. The Nursing Community includes 64 national professional nursing associations that build consensus and advocates on a wide spectrum of policy issues. Our organizations are committed to improving the health of our nation by collaborating to support the education, practice, and research of Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs). Collectively, the Nursing Community represents nearly one million practicing nurses, nurse executives, nursing students, faculty, and researchers.

Since 2009, the Nursing Community has advocated for a healthy nation by holding strong to the following Core Principles:

- A robust and diverse nursing workforce is essential to the health of all Americans.
- Nurses are an integral part of the healthcare team, are involved in every aspect of care delivery, and are committed to the patient, their families, the community, and the nation.
- The contributions made by the practice and science of nursing are critical to the delivery of high
 quality, life-saving, preventive, and palliative health care across all care settings, geographic
 areas, and social determinants of health.
- The services RNs and APRNs provide are linked directly to the availability, cost, and quality of healthcare services.
- Affordable, accessible, high-quality health care and improved health outcomes depend upon a
 model of care that is patient-centered and comprehensive. This can only be achieved through
 the full complement of expertise gained from broad-based, inter-professional partnerships of all
 health professionals, including RNs and APRNs.
- Nursing's involvement is essential to the development of new healthcare information technology infrastructure. Nursing data are key to identifying patient outcomes and required improvements in the delivery of patient care.

We aim to ensure that high quality nursing services are accessible to individuals across all care settings and in every corner of the country. We stand ready to work with you and your staff to improve teambased care delivery models that support a sustainable healthcare system long-term. This endeavor cannot be achieved without strong support for nursing education, research, and practice programs.

The unique partnership the Nursing Community has created allows our national nursing organizations to unite on shared agendas and to promote America's health through nursing care. If the Nursing Community can be of any assistance, please do not hesitate to contact Dr. Suzanne Miyamoto, at 202-463-6930 ext. 247 or SMiyamoto@aacn.nche.edu. We also invite you to view the Nursing Community's recent efforts at http://www.thenursingcommunity.org/.
